

## SymphonyAI Industrial's Dominic Gallelo Honored With Multiple 2022 American Business Awards®

*Awards spotlight innovation in industrial insight, accelerating autonomous plant operations*

Woburn, MA – May 10, 2022 – SymphonyAI Industrial announced today that CEO Dominic Gallelo has been selected for three American Business Awards, including achievement in management in computer software, thought leader of the year for business products, and achievement in management for manufacturing. These Gold, Silver and Bronze awards respectively will be presented at the 20<sup>th</sup> annual American Business Awards, June 13<sup>th</sup>.

In deciding the awards, the judges pointed to the company's leadership and growth through "the new phase of the Industrial Revolution, that focuses heavily on interconnectivity, automation, machine learning, and real-time data." The judges commented that "Industry 4.0 is the future and [SymphonyAI Industrial is] marching forward in enabling industry adoption." They also cited "inspiring leadership and impactful work to make the world a better place. [Gallelo is an] excellent leader who manages his business efficiently and creates a positive work environment for his team. Being an inspirational leader for his colleagues and teammates add up to his leadership efficiency."

### SymphonyAI Industrial

SymphonyAI Industrial, a SymphonyAI business, is an innovator in industrial insight, accelerating autonomous plant operations. The industry leading EurekaAI/IoT platform and industrial optimization solutions connect tens of thousands of assets and workflows in manufacturing plants globally and process billions of data points daily, pushing new plateaus in operational intelligence.

- Digital manufacturing composable enterprise MOM/MES platforms can be operational in 90 days to connect devices, processes, people, and systems with harmonizing plant automation and control.
- Plant performance applications span asset predictive maintenance and process health and optimization, maintaining high availability of equipment, extending the life of capital assets, and reducing process variability.
- Connected worker solutions mobilize people to handle even their most complex processes away from their desks with human-driven procedure and instruction support, using a combination of glasses, smartphones, tablets, and PCs.

SymphonyAI Industrial solutions provide high value to users by driving variability out of processes and optimizing operations for throughput, yield, energy efficiency, and sustainability.
