

## SymphonyAI Industrial CEO Delivers Keynote at ADIPEC 2022

Dominic Gallelo will address how third-generation AI methods achieve improved asset health and high process yield

**WOBURN, MA – October 14, 2022** - – SymphonyAI Industrial announced today that CEO Dominic Gallelo will deliver a keynote presentation at ADIPEC 2022 Downstream Technical Conference on November 3<sup>rd</sup> in Abu Dhabi, UAE. ADIPEC is the world’s most influential gathering for energy industry professionals. He will be presenting in the category of “Digital Transformation in Petrochemical Plants and Refineries”.

In that category, Mr. Gallelo will be speaking in the session titled “Unlocking the potential of petrochemical plants and refineries through digital transformation”. He will address augmenting AI with physics and thermodynamics for high fidelity digital twins to achieve a higher process yield. Gallelo will present real-world use cases and strategies where technology directly addresses petrochemical industry trends. He will showcase how this tech contributes to making assets more reliable and manufacturing processes more efficient and sustainable.

### **SymphonyAI Industrial**

SymphonyAI Industrial, a SymphonyAI business, is an innovator in industrial insight, accelerating autonomous plant operations. The industry-leading EurekaAI/IoT platform and industrial optimization solutions connect tens of thousands of assets and workflows in manufacturing plants globally and process billions of data points daily, pushing new plateaus in operational intelligence.

- Digital manufacturing composable enterprise MOM/MES solutions can be operational in 90 days to connect devices, processes, people, and systems with harmonizing plant automation and control.
- Plant performance applications span asset predictive maintenance and process health and optimization, maintaining high equipment availability, extending the life of capital assets, and reducing process variability.
- Connected frontline worker solutions mobilize people to handle complex processes with human-driven procedure and instruction support, using a combination of glasses, smartphones, tablets, and PCs.

SymphonyAI Industrial solutions provide high value to users by driving variability out of processes and optimizing operations for throughput, yield, energy efficiency, and sustainability.

### **About SymphonyAI**

SymphonyAI is building the leading enterprise AI company for digital transformation across the most important and resilient growth industries, including retail, consumer packaged goods, financial services, manufacturing, media, and IT service management. SymphonyAI businesses have many leading enterprises as clients in each of these industries. Since its founding in 2017, SymphonyAI has grown rapidly, approaching 2,000 talented leaders, data scientists, and other professionals. SymphonyAI is an SAIGroup company, backed by a \$1 billion commitment from successful entrepreneur and philanthropist Dr. Romesh Wadhvani.
